

ECS Configuration Change Request

Page 1 of 7 Page(s)

1. Originator Evan Winston	2. Log Date: 3/30/01	3. CCR #: 01-0284	4. Rev: 1	5. Tel: 301.925.0348	6. Rm #: 2013	7. Dept. DEV/CO
8. CCR Title: Test Executable 5B.07_JDT.06 for EDC, VATC, PVC. Scheduled March delivery. to EDC DAAC.						
9. Originator Signature/Date  04/02/01		10. Class II	11. Type: CCR	12. Need Date: 30Mar2001		
13. Office Manager Signature/Date  04/02/01		14. Category of Change: Other		15. Priority: (If "Emergency" fill in Block 28). Emergency		
16. Documentation/Drawings Impacted: N/A		17. Schedule Impact: N/A		18. CI(s) Affected: JDT		
19. Release Affected by this Change: 5B		20. Date due to Customer: 30MAR01		21. Estimated Cost: None - Under 100K		
22. Source Reference: <input checked="" type="checkbox"/> NCR (attach) <input type="checkbox"/> Action Item <input type="checkbox"/> Tech Ref. <input type="checkbox"/> GSFC <input type="checkbox"/> Other: JDT delivery--NCRs 30228, 30242, 29576, 30114, 29975, 24937, 29652, 29543, 30111, 30101						
23. Problem: (use additional Sheets if necessary) JDT needed at EDC for TESTING and checkout. Please refer to the individual NCRs for problem statement and fixes provided.						
24. Proposed Solution: (use additional sheets if necessary) Send the latest copy of JDT from the 6A baseline. Provide latest map data files for use with the webglis software (COTS). This map data will become COTS files when they are PSR'd.						
25. Alternate Solution: (use additional sheets if necessary) Take no action now and wait until later JDT drops are made and bypass testing by users.						
26. Consequences if Change(s) are not approved: (use additional sheets if necessary) JDT will not be tested at the EDC.						
27. Justification for Emergency (If Block 15 is "Emergency"): Needed for immediate delivery to meet testing schedule at EDC..						
28. ADDITIONAL SHEET

CCR #: 01-0284 Rev: Originator: Evan Winston

Telephone: 301.925.0348 Office: DEV/CO

Title of Change: Test Executable 5B.07_JDT.06 for EDC, VATC, PVC. Scheduled March delivery. to EDC DAAC.

CM: PLEASE, Build 5 TAR files as follows:

Build a Sun TAR file for the listed .pkg from the current 6A baseline:
/ecs/formal/CLS/.EcCIJdt.pkg

Build four separate Sun tar files for the data files:

The data resides in four
separate tar files under /net/origin/devdata1/webglisdata. They are:

lowres.tar
medres.tar
highres.tar
ultrares.tar

to build the compressed TAR files please use the commands:

tar cvf
and
gzip

SMC: Receive the TAR file(s) and make available to the PVC, VATC, and EDC.

EDC,VATC,PVC Install Instructions:

Please follow these instructions

1. Receive the TAR file from the SMC.
2. UnTAR file into staging area.
3. Using ECS Assist SubSys Manager on the CLS Host, install the EcCIJdt.pkg
4. Detailed Installation Instructions were provided with the JDT.05 delivery. These instructions have not changed. They should be continued to be used.
5. Instructions for install of the four map data webglis files:
*For whomever shall do the map data update for JDT (I'm assuming Tom or Mary),

brief notes about the new map data.

The map data should be available in four separate compressed tar files. I don't know what compression Evan will use [gzip compression is used] on the tar files but their names, sans extensions are the following: lowres, medres, highres and ultrares. The JDT webglis needs each of these tar files to update the map data.

Regarding the current webglis installation for JDT at EDC, nothing changes except the directories under the cgi-bin/map directory. Currently, the map directory itself contains two directories, lowres and medres. In order to update the map data, these two existing directories need to be replaced with

the new ones of the same name. In addition, the new highres and ultrares directories need to be added such that the map directory contains lowres, medres, highres and ultrares directories. Note that these could actually be links to the new directories if you want to store the map data on some high-volume raid (the highres and ultrares data are quite large) that's automounted over your network (this is how we do it in the EDF). The links would be of the form:

```
ln -s <path_to_the_real_directory>/ultrares ultrares
```

Note that the links must follow the naming convention.

First unzip the files using:

```
gunzip -c filename.tar.gz > (destination target name)  
tar xvf -
```

Please call or e-mail me if you have any questions.

Keith

=====

Keith Bryant mailto:kbryant@eos.hitc.com (301) 925-1126 "

ECSed30242

B. Summary of all NCR fixes:

removing unnecessary instance variables among other things...

5. Modified Object Report(s):

Since this Merge Form doesn't contain any compilable code, a Modified Objects Report is not needed.

6. Required Corresponding Merges:

No

7. Build Impact:

None

8. Installation/Configuration Impacts:

Does this Merge Form affect any of these?

None?: None

Give an explanation for each item in Installation/Configuration Impacts for which you selected Yes:

9. Test Instructions for Checkout Lab:

Bring up jdt, run regression test, but for each search instead of modifying an initial search, from file menu or search by attr button, create a new search by attr.

ECSEd29616

B. Summary of all NCR fixes:

The XARs and Searches in the XAR Organizer screen now shows the corresponding modification dates instead of the creation date.

4. Files in Task:

/ecs/formal/CLS/WKBCH/jdt/infrastructure/persistence/PersistenceManager.java

5. Modified Object Report(s):

http://pete/STTS/prot-cgi/read_discover_report.pl?no_files_found

6. Required Corresponding Merges:

No

7. Build Impact:

/ecs/formal/CLS/bin/sun5.5/EcCIWbJdt.jar

8. Installation/Configuration Impacts:

Does this Merge Form affect any of these?

None?: None

Give an explanation for each item in Installation/Configuration Impacts for which you selected Yes:

9. Test Instructions for Checkout Lab:

Bring up JDT. Create a XAR, create a search. Update. Modify the XAR, and Search and update. Note the time of modification. Bring down the JDT and bring it up again. Click on the Xar Organizer screen and verify that the search and the XAR modified show the modified time.
